

Our college aims to cultivate world-class mechanics to take central roles in the future of Japan, one of the leading countries in automobile industry.

Tokushima College of Technology was originally established as Tokushima Technical School in 1943. In 1973 the college was approved as the only automobile college to obtain Class 2 Automobile Mechanic License in Shikoku by both the Ministry of Education, Culture, Sports, Science and Technology and the Ministry of Land, Infrastructure, Transport and Tourism.

Expert knowledge with balanced general education subjects and computer exercises

There are subjects, including sports, ethics, mathematics, physics and Internet computer practice, which are not allocated in specialized schools. The college offers a two-year special Japanese language education program to international students. We also offer a special education program to students who want to transfer to another university as third-year students. Our students have transferred to universities such as Tokushima University, Osaka Sangyo University, Takamatsu University, Aichi University of Technology, etc.

Learning of the latest mechanism through highly attractive specialized practices

In our specialized practices, as educational materials we use new cars by **TOYOTA, NISSAN, HONDA, MAZDA, MITSUBISHI, SUZUKI**, etc. to learn the world-class and latest mechanism of Japanese automobiles. We have a lot more to offer to car enthusiasts. For example, you can feel the speed of a car running 200 kilometers per hour on a chassis dynamometer. We can maintain and repair cars with the latest technology such as a hybrid car and an electric car (EV). Our college also has a fuel cell car, MIRAI.

Courses · Enrollment limit

- Department of Automotive Engineering (two years) ... 80 students
- Advanced courses
- Automotive Engineering major (two years) 5 students

MIRAI (toyota) running on hydrogen energy

From UNIV.

Our unique Japanese language education

1. After you decide to apply to our college and until the entrance examination: a private lesson on Skype (one hour per week)
2. After you are accepted and until the entrance ceremony: a two-week special training on campus to improve your Japanese language skills and learn technical terms for cars
3. After you enter our college and until the graduation ceremony: a two-year Japanese language course for Japanese Language Proficiency Test (JLPT) N2 or higher

Our unique support system on and off campus

Include welcome meeting, birthday party and outing held by the Supporters' Association, as well as support from Japanese students.

In Japan 1st session: October13 2nd session: November17 3rd session: December23 4th session: February3	E: 250,000 T: 336,000 Expenses for expansion and improvement for the facilities: 280,000 Total tuition fees: 866,000 (※) 60% Amount after exemption Deposit: 200,000 Grand total of fees: 1,066,000 (※) (Breakdown of other expenses) Textbooks, Work clothes for practices, Caps, Insurance, etc.	10	9	9	13

Tuition fee reduction

※ It needs exemption conditions.

Title	Eligible year	Period	Reduction rate	Eligible students
Tuition fee reduction	Freshman and Sophomore	Two years	60%	All students

Scholarship program

※ It needs support conditions.

TCOT will provide international students in the Department of Automotive Engineering with a scholarship: 20,000 JPY every month, not included August and March.

Dormitory and Housing

TCOT introduces student dormitories and cheap private apartments of residence supply company of Tokushima. The rent of a single room is above JPY 11,000 per month.

Mr QUACH CHAU

Toyota Nankai Group
Birthplace: Hoa Binh

Vietnam

The teachers at Tokushima College of Technology were very friendly, took great care of us as international students, and helped us a lot in our lives. I was able to learn the basic knowledge and skills of a car specialty, and obtained a nationally qualified Class 2 Automobile Mechanic License. I am currently working as a mechanic at Nets Toyota Nankai. Specifically, it includes replacement of consumables, vehicle inspection and maintenance, and 12-month inspection. I am having a happy life with my wife now.

Entrance Ceremony

Tokushima: Gateway to the island of Shikoku

Tokushima is easily accessed from the Kansai area via Akashi Kaikyo Bridge, the longest suspension bridge in the world (Total length 3,911 meters; Longest span 1,991 meters). It takes about two and half hours from Kansai International Airport by Highway Bus. Get off at JR Itano Station and then take a taxi for 5min.
